

**Next year, Canada will welcome over 1 million newcomers.  
That's a lot of new neighbours.  
**Are you ready to love them?****

**Many Canadian Christians feel unequipped to reach out to their new neighbours or connect with people of other cultures. Our churches and the communities around them are changing, and Christians can choose to lead with love, modelling the welcome of Jesus. You wouldn't expect an international missionary to be successful without training. *Your church deserves the same!* A little education helps all of us move from fear to friendship, turning our compassion into true community.**
